He had a thirst for knowledge and derived great joy and satisfaction from helping others.

Editor's Note: Dan was a colleague, friend, and boss at Rutgers Cooperative Extension. He was the best boss of the five department heads I had in my career at Rutgers. He was an outstanding county agricultural agent for many years serving at RCE of Mercer County. He earned the rank of Full Professor at Rutgers for his scholarly work and teaching in the ag community. I was proud to have had the privilege to have worked with Dan for much of my career.

Another of our agents provided the following: "To me Dan was always a tremendous leader, teacher, coworker and friend. He always encouraged the County Agents to do better and had great pride in our work for the agricultural community and the citizens of the state. He will be sorely missed but his legacy will live on through the many people he impacted through his productive life and career."

SANTO SAYS...

"Peaches from Circle M Farms just plain taste better. Their size and color are what your customers want, and their flavor is the icing on the cake.

That's because our orchards are tended with care and attention, and their fruit is left on the tree to ripen naturally until they reach their optimum sweetess. Then they are picked by hand, taste-tested by me to ensure quality, and packed gently into 25 lb. volume boxes for shipping. Single layer cartons are available upon request.

Circle M's 30 varieties of peaches and nectarines are known for their sweetness and their luscious color. They look as good as they taste.

Discriminating customers appreciate our white flesh peaches because of their lower acid levels and supremely sweet taste.

Add it all up: Peaches from Circle M Farms are fresher and sweeter, picked by hand when their time has come, and packed with care for a longer shelf life.

Yellow, white and donut peaches and yellow and white nectarines are available early July to late September."
